Zhen Ding Technology Holding Limited

Business Report

The US–China trade war has consistently remained unchanged since 2018. Looking back on 2019, the global economy is once again plunged into many risks and uncertainties, exposing the electronics industry to enormous pressure and challenges. The Company leveraged its advantages in production capacity, quality, and technology development. While providing customers with excellent products and services, we remain fully committed to expanding our new customer base. In addition to fortifying cooperation with numerous renowned vendors around the world to access their new product lines, we research and develop products that feature the properties of light-weight, thin, short, small, high-frequency, high speed, low pollution, low loss, low power consumption, multi-functional, precision (low tolerance), beauty (aesthetically appealing), refinement, and intelligence. We keep abreast of current trends and development for electronic products related to 5G, Internet of Things, Internet of Vehicles, Industrial Internet of Things, and artificial intelligence, as well as constantly promote research, development, and deployment in the field of automotive electronics, enabling the Company to steadily increase its revenues and profits in 2019.

The Company's 2019 business overview and 2020 future outlook are as follows:

I. 2019 Business Overview

(I) Financial Results

The Company's consolidated revenue for 2019 was NT\$120,067,508 thousand, an increase of 1.83% compared to previous year. Net income was NT\$12,401,617 thousand (net income attributable to the parent company was NT\$8,685,202 thousand), an increase of 7.5% from previous year. The consolidated earnings per share (EPS) was NT\$14.18 (consolidated EPS attributable to the parent company was NT\$9.93).

In facing the risks of a declining macro economy in the overall environment, the Company continues to strengthen control over financial risks by conducting reviews and adjustments as needed to increase its capital efficiency and to secure adequate cash flow. As of the end of 2019, the Company's debt ratio was 35%, surpassing market level in the industry. Capital abundance lays a firm foundation for the company's future development and response to various types of risks and changes.

(II) Technology Development

The Company is devoted to developing new materials, new products, new manufacturing processes, new equipment, and new technologies, closely cooperates with world-class clients to keep abreast of technological development trends, and continues to develop 5G, AI, Internet of Things, and Internet of Vehicles applications to secure the Company's technology leadership in the industry. In 2019, Zhen Ding has invested NT\$6.1 billion in R&D, which accounts for 5.11% of its operating revenues. We accumulated 117 patents in 2019: 53 from Mainland China, 40 from Taiwan, and 24 from the United States. As of the end of 2019, the Company has accumulated 904 patents: 363 from Mainland China, 395 from Taiwan, and 146 from the United States; 93% of these are utility patents.

To cultivate professional talents and enhance technology development, the Company engages in research projects with 18 reputable universities and 2 research institutes in Greater China to accelerate and facilitate the implementation of core technology research results through cooperation with scientific research institutes. By joining forces

with experts and professors of prestigious universities and institutes in Greater China, we successfully hosted the first electronic circuit technology forum, during which next-generation technologies for the electronic industry were discussed, reviewed, and planned.

(III) Organic and Inorganic Growth

To strengthen corporate development, the Company continues to invest in major investment projects, including the capacity expansion in Huaian and Qinhuangdao. Specifically, the Phase 2 construction of Hua'an Industrial Park, the SLP production line expansion of Qinhuangdao, and the Phase 1 construction of Shenzhen Plant 2 have been completed and ramped up production. Meanwhile, the Company accelerates investments for overseas expansion. We have established a subsidiary in India and completed the recruitment and training of local employees. The production line in India is expected to commence operation in 2020. To increase the Company's overall asset management efficiency and enhance business synergy, we closed our Yinkou manufacturing site at the end of 2019, thereby optimizing and integrating the resources and collaboration network within the Company's manufacturing sites.

Through market analysis and research for integrating the vertical and horizontal aspects of an industry, the Company actively expands its up/downstream industry chains through diverse investment channels and cooperation with professional institutions to constantly bolster and improve the company's comprehensive competitiveness in the PCB industry.

(IV) Increasing the level of automation to build a smart factory for Industry 4.0

In recent years, the Company has comprehensively increased its use of automated, smart, and intelligent applications to achieve the goals of a smart factory for Industry 4.0. We invested in a project in 2019 to expand the SLP production lines of the Qinhuangdao site. Through this project, the first lights-out factory using advanced production processes was achieved. While transitioning to automated manufacturing, the Company built a complete IT management system, realizing the use of smart applications to track and trace products in the manufacturing process and product quality. At the same time, we introduced a big data process expert system, which is used in the production of semiconductors, to the production process. This system effectively improves manufacturing efficiency and product quality. In future, we will continue to promote AI applications and machine learning to transform the Company into a smart factory.

II. 2020 Outlook

The US-China trade war that has continued to this day has finally entered the phase one trade agreement at the beginning of 2020. However, the outbreak of the COVID-19 has plunged businesses around the world into chaos, including disruption to industry supply chain, suspension of production activities, shortage of raw material supply, reduced consumption behavior, and imbalance between supply and demand for daily necessities, resulting in a global economic recession that is worse than the financial crisis. To prepare for the potential risks of a downward global economy due to the pandemic, the Company has not only stepped up its epidemic prevention efforts to ensure employee health, but also paid attention to its stability for production capacity and quality control. We uphold the "One ZDT" (one-stop shopping service) principle, flexibly adjust investment and product manufacturing strategies according to market conditions, maintain a stable financial plan, and focus on developing high-end products and technologies, all in an effort to actively promote long-term cooperation with strategic partners, collaborate in the development of new materials, new equipment, and new technologies required for specialized manufacturing processes, and ensure that we make progress and stay on schedule to achieve the goal of building a smart factory for Industry 4.0.

In addition to providing customers with leading technologies and premium quality, the Company also reinforces its resource pooling with strategic partners to co-develop new breakthroughs of high-quality industrial technologies. In response to macroeconomic changes, we will continue to aim toward upholding our world-leading technology and market position.

With the commitment to ZDT's business strategy— "stable growth, structural adjustments, innovation promotion, and risk management", the Company will continue to optimize production capacity and ensure the robustness of each of our product line. To serve with corporate social responsibility, we are dedicated to environment protection and responding to risks of climate change. The Company's continuous innovations in advanced technologies and high-performing, cost-effective materials are leading industry advancement and strengthening our core competence. ZDT is paving the way to sustained growth together with our strategic partners, and striving to achieve the Company's mission of "continuous technology development for better human life; continuous environmental excellence for a greener earth."

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Shareholders of Zhen Ding Technology Holding Limited

Opinion

We have audited the accompanying consolidated balance sheets of Zhen Ding Technology Holding Limited and its subsidiaries (the ‘Group’) as of December 31, 2019 and 2018, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2019 and 2018, and their consolidated financial performance and their consolidated cash flows for the years then ended in accordance with the ‘Regulations Governing the Preparation of Financial Reports by Securities Issuers’ and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed and issued into effect by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits of the consolidated financial statements as of and for the year ended December 31, 2019 in accordance with the ‘Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants’, ‘Enforcement Letter No. Financial-Supervisory-Securities-Auditing-1090360805 issued by the Financial Supervisory Commission on February 25, 2020’ and generally accepted auditing standards in the Republic of China; and of the consolidated financial statements as of and for the year ended December 31, 2018 in accordance with the ‘Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants’ and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code

of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with the code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters on the consolidated financial statements of the Group for the year ended December 31, 2019 were as follows:

Cutoff of hub warehouse sales revenue

Description

Refer to Note 4(28) for accounting policies on revenue recognition.

The Group recognises revenue when the goods are directly shipped from factories and when customers accept the goods (the transfer of control) if picked up from hub warehouses. For pick-ups from hub warehouses, the Group recognises sales revenue based on movements of inventory records contained in the statements or other information provided by the warehouse custodians. The hub warehouses are located around the world with numerous warehouse custodians, the frequency and contents of statements provided by custodians are different, and the process of revenue recognition may involve manual procedures. These factors may potentially result in inaccurate timing of sales revenue recognition.

As there are numerous daily sales transactions from hub warehouses and the transaction amounts prior to and after the balance sheet date are significant to the financial statements, we consider the cutoff of hub warehouse sales revenue a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Assessed and tested internal controls over regular record verification between the Group and customers.

- B. Assessed and checked the appropriateness of cutoff of sales revenue prior to or after the balance sheet date, and verified the statements provided by the hub warehouse custodians.
- C. Performed confirmation of the storage quantities or observed physical counts in warehouse, compared against inventory records, and determined whether differences, if any, are properly adjusted.

Estimation of allowance for inventory valuation losses

Description

Refer to Note 4(14) for accounting policies on inventory valuation, Note 5 for the uncertainty of accounting estimates and assumptions applied on inventory valuation, and Note 6(5) for details of inventory. As of December 31, 2019, the Group's inventory cost and allowance for valuation losses were NT\$9,226,326 thousand and NT\$709,464 thousand, respectively.

The Group is primarily engaged in manufacturing and sales of printed circuit board. Due to rapid technological innovations, short lifespan of electronic products and fluctuations in market prices, there is a higher risk of inventory losses due to market value decline or obsolescence. The Group measures inventories at the lower of cost and net realisable value and recognises the allowance for inventory valuation losses based on the inventories over normal age and those individually identified as obsolete or damaged.

As the amounts of inventories are material, the types of inventories are numerous, and the estimation of net realisable value for individually obsolete or damaged inventories are subject to judgement, we consider the estimation of allowance for inventory valuation losses a key audit matter.

How our audit addressed the matter

We performed the following audit procedures in relation to the estimation of allowance for inventory valuation losses:

- A. Assessed the reasonableness of accounting policy on allowance for inventory valuation losses and checked whether it has been consistently applied.
- B. Checked whether the logic in calculating inventory aging report was appropriate and confirmed whether inventory over normal age has been included in the aging report.
- C. Assessed the reasonableness of individually obsolete or damaged inventory identified by the Group

against related supporting documents, reviewed scrap inventory before and after the balance sheet date, and verified the information obtained from physical count.

- D. For net realisable value of inventories over normal age and those individually identified as obsolete and damaged inventory, discussed with the Group, obtained supporting documents and reviewed calculation of inventory loss.

Impairment assessment of property, plant and equipment

Description

Refer to Notes 4(16) and 4(19) for accounting policies on property, plant and equipment, Note 5 for the uncertainty of accounting estimates and assumptions applied on the impairment assessment valuation of property, plant and equipment, and Note 6(8) for details of property, plant and equipment. As of December 31, 2019, the property, plant and equipment cost and accumulated depreciation and impairment were NT\$83,376,117 thousand and NT\$37,133,504 thousand, respectively.

Certain property, plant and equipment of the Group are used for the manufacture of printed circuit boards. As the market demand changes, the risk of asset impairment also increases. The impairment assessment involves several subjective judgements, such as the determination of the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on asset utilisation and industrial characteristic.

As the assessment is subject to judgement, the accounting estimates may not be reasonable. Thus, we consider the impairment assessment of property, plant and equipment a key audit matter.

How our audit addressed the matter

We performed the following audit procedures and verified the recoverable amount calculation in regard to the Group's impairment assessment of property, plant and equipment at the balance sheet:

- A. Assessed whether the assets impairment assessment procedures and accounting policies are reasonable and have been applied consistently and reviewed the method used by the Group in determining the recoverable amount of individual assets.
- B. Obtained the information used by the Group in determining the recoverable amount, such as the determination of the separate cash flows of a specific group of assets, useful lives of assets and the

future possible income and expenses arising from the assets and ascertained whether it is reasonable.

C. Compared the expected future sales revenue growth and profitability with historical data, the trend of economic and industrial forecasts and checked whether it has been consistent.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the ‘Regulations Governing the Preparation of Financial Reports by Securities Issuers’ and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed and issued into effect by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the audit committee) are responsible for overseeing the Group’s financial reporting process.

Auditors’ responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected

to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- E. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements.

We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2019 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

If the notice of retraction is submitted after that time, the voting rights already exercised by correspondence or electronic means shall prevail. - V. Except as otherwise provided in the Company Act and in this Corporation's articles of incorporation, the passage of a proposal shall require an affirmative vote of a majority of the voting rights represented by the attending shareholders. At the time of a vote, for each proposal, the chair or a person designated by the chair shall first announce the total number of voting rights represented by the attending shareholders, followed by a poll of the shareholders. After the conclusion of the meeting, on the same day it is held, the results for each proposal, based on the numbers of votes for and against and the number of abstentions, shall be entered into the MOPS.

DIVIDENDS AND CAPITALISATION

13. Dividends

13.1 The Board may declare a Dividend to be paid to the Members in proportion to the number of shares held by them, and such Dividend may be paid in cash, shares or, subject to Article 13.2, wholly or partly in specie. No unpaid Dividend shall bear interest as against the Company.

13.2 Subject to the provisions of Article 13.1 hereof and approval by Members by way of Ordinary Resolution, the Directors may determine that a Dividend shall be paid wholly or partly by the distribution of specific assets (which may consist of the shares or securities of any other company) and may settle all questions concerning such distribution, subject, however to obtaining the prior consent of any shareholder to whom it is proposed to make a distribution in specie and an assurance on the valuation of the assets for distribution from an ROC certified public accountant, prior to the Directors fixing the value of the assets for distribution. The Directors may make cash payments to some Members on the footing of the value so fixed in order to adjust the rights of Members. Without limiting the foregoing generality, the Directors may vest any such specific assets in trustees on such terms as the Directors think fit and may issue fractional shares.

13.3 Subject to the Applicable Law, no Dividends or other distribution shall be paid except out of profits of the Company, realised or unrealised, out of share premium account or any reserve, fund or account as otherwise permitted by the Law. Except as otherwise provided by the rights attached to any shares, all Dividends and other distributions shall be paid according to the number of the shares that a Member holds. If any share is issued on terms providing that it shall rank for Dividend as from a particular date, that share shall rank for Dividends accordingly.

13.4 With respect to the Dividend to be distributed at the end of each financial year,

subject to the Law and this Article and except as otherwise provided by the rights attached to any shares, the Company may distribute profits after each financial year in accordance with a proposal for profits distribution approved by, in the case of Dividend to be paid in cash, a majority of the Directors at a meeting attended by two-thirds or more of the total number of the Directors or, in the case of Article 11.4(a), Supermajority Resolution in the annual meeting. After the Board approves the distribution of Dividend in cash, the Board shall report such distribution in the next annual general meeting.

- 13.5** Upon the final settlement of the Company's accounts, if there is "surplus profit" (as defined below), the Company shall set aside zero point five per cent (0.5%) to twenty per cent (20%) as compensation to employees ("**Employees' Compensations**") and Employees' Compensations may be distributed to employees of the Company and its Subsidiaries, who meet certain qualifications. The Company shall, from the surplus profit, set aside no more than zero point five per cent (0.5%) thereof as remuneration for the Directors ("**Directors' Remuneration**"). The distribution proposals in respect of Employees' Compensation and Directors' Remuneration shall be approved by a majority of the Directors at a meeting attended by two-thirds or more of the total number of the Directors and submitted to the shareholders' meeting for report. However, if the Company has accumulated losses, the Company shall reserve an amount thereof for making up the losses before proceeding with the abovementioned distributions and allocation. The "surplus profit" referred to above means the net profit before tax and for the avoidance of doubt, such amount is before any payment of compensation to employees and remuneration for the Directors.
- 13.6** In determining the Company's dividend policy, the Board recognises that the Company operates in a mature industry, and has stable profit streams and a sound financial structure. In determining the amount, if any, of the Dividend or other distribution it recommends to Members for approval in any financial year, the Board:
- (a) may take into consideration the earnings of the Company, overall development, financial planning, capital needs, industry outlook and future prospects of the Company in the relevant financial year, so as to ensure the protection of Members' rights and interests; and
 - (b) shall set aside out of the profits of the Company for each financial year: (i) a reserve for payment of tax for the relevant financial year; (ii) an amount to offset losses incurred in previous years; (iii) ten per cent (10%) as a general reserve (unless the general reserve reserved in the past years has reached the total paid-up capital of the Company), and (iv) a special surplus reserve as required by the applicable securities authority under the Applicable Public Company Rules or a reserve as determined by the Board pursuant to Article 14.1.
- 13.7** Subject to compliance with the Law and after setting aside the amounts for Employees' Compensations and Directors' Remuneration in accordance with Article 13.5 and such amounts as the Board deems fit in accordance with the distribution policy set out in Article 13.6, the Board shall recommend to distribute no less than ten

per cent (10%) of the distributable amount as Dividend to the Members.

- 13.8** Dividends to the Members and the Employees' Compensation may be distributed, in the discretion of the Board, by way of cash or by way of applying such sum in paying up in full unissued shares or a combination of both for allocation and distribution to employees or the Members, provided that, in the case of a distribution to Members, no less than fifty per cent (50%) of the total amount of such Dividend shall be paid in cash. No unpaid Dividend and compensation shall bear interest as against the Company.
- 13.9** The Board shall fix any date as the record date for determining the Members entitled to receive any Dividend or other distribution.
- 13.10** For the purpose of determining Members entitled to receive payment of any Dividend or other distributions, the Directors may provide that the Register of Members be closed for transfers for five (5) days before the relevant record date or such other period consistent with the Applicable Public Company Rules subject to compliance with the Law.

14. Capital Reserve and Power to Set Aside Profits

- 14.1** The Board may, before declaring a Dividend, set aside out of the surplus or profits of the Company, such sum as it thinks proper as a reserve to be used to meet contingencies or for meeting the deficiencies for implementing Dividend distribution plans or for any other purpose to which those funds may be properly applied. Pending application, such sums may be in the absolute discretion of the Directors either be employed in the business of the Company or invested in such investment as Directors may from time to time think fit, and need not be kept separate from other assets of the Company. The Directors may also, without placing the same to reserve, carry forward any profit which they decide not to distribute.
- 14.2** Subject to any direction from the Company in general meeting, the Directors may on behalf of the Company exercise all the powers and options conferred on the Company by the Law in regard to the Capital Reserve. Subject to compliance with the Law, the Directors may on behalf of the Company set off accumulated losses against credits standing in the Capital Reserve and make distributions out of the Capital Reserve.

15. Method of Payment

- 15.1** Any Dividend, interest, or other monies payable in cash in respect of the shares may be paid by wire transfer to the Member's designated account or by cheque or draft sent through the post directed to the Member at such Member's address in the Register of Members, or to such person and to such address as the holder may in writing direct.
- 15.2** In the case of joint holders of shares, any Dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or draft sent through the post directed to the address of the holder first named in the Register of Members, or to such person and to such address as the holder may in writing direct. If two or more persons are registered as joint holders of any shares any one can give an effectual receipt for any Dividend paid in respect of such shares.

16. Capitalisation

Subject to the Law and Article 11.4(a), the Board may capitalise any sum for the time being standing to the credit of the Capital Reserve or other reserve accounts or to the credit of the profit and loss account or otherwise available for distribution by applying such sum in paying up unissued shares to be allotted as fully paid bonus shares pro rata to the Members.
