

Zhen Ding Technology Holding Limited (4958 TT)

April 2023 Monthly Revenue Report

Zhen Ding Technology Holding Limited (Ticker: 4958), a leading global PCB manufacturer, today reported April 2023 revenue of NT\$7,140 million, down 21.69% MoM and down 30.95% YoY. For January through April 2023, cumulative revenue reached NT\$38,685 million, down 12.59% YoY. According to Zhen Ding, the cumulative revenue of first four months still reached the second highest level for the same period in the company's history. However, as the company previously expected, the first half of the year is a traditional off-season, the demand for consumer electronics remains weak, and the supply chain is still digesting inventories. As a result, Zhen Ding is relatively conservative in the operating results for the first half of 2023.

According to Zhen Ding, although the recovery of consumer electronics demand remains unclear, the company has continued with its current pace in technology innovation and co-development of new high-end products with its clients, especially for the new applications including server PCB and ABF substrate. As the industry enters the traditional peak season in the second half of the year, Zhen Ding will prepare for the shipments of customers' new products, which will drive a steady recovery. Overall, the company's operation is expected to reach a bottom in the first half of this year.

Unit: thousands	Consolidated Revenue (NTD)
April 2023	7,139,512
April 2022	10,340,112
YoY Change (%)	-30.95%
Jan – April, 2023	38,684,665
Jan – April, 2022	44,255,352
YoY Change (%)	-12.59%

* The consolidated revenue for each month mentioned above is the amount that the Company announces and files with the Taiwan Stock Exchange on a monthly basis. The final consolidated revenue is subject to the financial report reviewed by CPAs. For further details, please visit "[Investors](#)" section on the company website.

About Zhen Ding Technology Holding Limited

Zhen Ding Technology Holding Limited (Taiwan Stock Exchange Ticker: 4958) is engaged in the research, development, production and sales of a wide range of flexible printed circuit boards (FPC) and modules, high-density interconnect (HDI) PCBs, substrate-like PCBs (SLP), Mini LED ultra-thin boards, IC substrate and multi-layer rigid printed circuit boards (RPCB) for a wide range of applications including computer information, consumer electronics, networking, automotive electronics, high-performance computing and medical fields. We provide one-stop shopping for all-round solutions to our customers. For more information, please visit the Company's website: www.zdtco.com.
