

## Zhen Ding Technology Holding Limited (4958 TT)

### January 2024 Monthly Revenue Report

Zhen Ding Technology Holding Limited (Ticker: 4958), a global leading PCB manufacturer, today reported January 2024 revenue of NT\$12,775 million, up 2.33% YoY, reaching a record high for the same period on top of a high base from last year.

According to Zhen Ding, despite the higher base in January last year after the supply chain returned to normal, the company's January revenue this year achieved YoY and MoM growth across applications including Computers and Consumer Electronics, Automotive/Base Station/Server, and IC Substrates. Specifically, the combined revenue contribution from Automotive/Base Station/Server and IC Substrates has exceeded 10%. This demonstrated the effectiveness of the company's diversification effort under the One ZDT strategy, enabling it to maintain steady revenue growth in a traditionally slower season.

Looking ahead to 2024, Zhen Ding reiterates that, while the magnitude of recovery for consumer demand and geopolitical uncertainty still need to be monitored, it anticipates modest revenue growth for 2024, as the supply chain inventory has gradually returned to healthy levels.

Unit: thousands	Consolidated Revenue (NTD)
<b>January 2024</b>	<b>12,774,631</b>
<b>January 2023</b>	<b>12,484,281</b>
YoY Change (%)	2.33%
<b>December 2023</b>	<b>14,842,173</b>
MoM Change (%)	-13.93%

\* The consolidated revenue for each month mentioned above is the amount that the Company announces and files with the Taiwan Stock Exchange on a monthly basis. The final consolidated revenue is subject to the financial report reviewed by CPAs. For further details, please visit "[Investors](#)" section on the company website.

### **About Zhen Ding Technology Holding Limited**

Zhen Ding Technology Holding Limited (Taiwan Stock Exchange Ticker: 4958) is engaged in the research, development, production and sales of a wide range of flexible printed circuit boards (FPC) and modules, high-density interconnect (HDI) PCBs, substrate-like PCBs (SLP), Mini LED ultra-thin boards, IC substrate and multi-layer rigid printed circuit boards (RPCB) for a wide range of applications including computer information, consumer electronics, networking, automotive electronics, high-performance computing and medical fields. We provide one-stop shopping for all-round solutions to our customers. For more information, please visit the Company's website: [www.zdtco.com](http://www.zdtco.com).
