Zhen Ding Technology Holding Limited (4958 TT)

July 2026 Monthly Revenue Report

Zhen Ding Technology Holding Limited (Ticker: 4958), a global leading PCB manufacturer, today (August 6) reported July 2026 revenue of NT$17,601 million, up 31.82% YoY and 3.33% MoM, again setting a record high for the same period in the company's history. For January through July 2026, cumulative revenue reached NT$106,759 million, up 16.50% YoY, also marking a record high for the same period. Looking ahead to the second half of the year, the traditional peak season for new consumer electronics launches, together with growing demand for high-end AI applications, is expected to sustain the company's growth momentum.

According to Zhen Ding, July revenue again reached the highest monthly level so far this year. Revenue from the Mobile Communications business maintained double-digit YoY growth. Combined revenue from Servers/Optical Modules/IC Substrates continued to deliver triple-digit growth, accelerating further from the previous month and reaching another monthly record high. This strong performance was primarily driven by the continued rollout and volume production ramp-up of customers' high-end AI products, which led to a steady increase in shipments of the company's related products. As high-end, high-value-added products continue to account for a larger share of revenue, the company's product mix and overall operating profile are expected to strengthen further.

Zhen Ding will hold its earnings call for the first half of 2026 at 3:00 p.m. on Tuesday, August 11. During the earnings call, management will provide a detailed update on the company's operating performance and future outlook. Participants are requested to complete the online registration form in advance. Conference access details will be sent by email upon receipt of the registration.

Unit: thousands	**Consolidated Revenue (NTD)**
July 2026	**17,600,546**
July 2025	**13,352,388**
YoY Change (%)	31.82%
June 2026	**17,033,197**
MoM Change (%)	3.33%
January – July, 2026	**106,759,389**
January – July, 2025	**91,637,736**
YoY Change (%)	16.50%

* The consolidated revenue for each month mentioned above is the amount that the

Company announces and files with the Taiwan Stock Exchange on a monthly basis. The final consolidated revenue is subject to the financial report reviewed by CPAs. For further details, please visit "Investors " section on the company website.

About Zhen Ding Technology Holding Limited

Zhen Ding Technology Holding Limited (Taiwan Stock Exchange: 4958) specializes in the research, development, production, and sales of a diversified range of products, including flexible printed circuit board (FPC) and surface mount assembly (SMA), substrate-likes PCBs (SLP), high-density interconnect (HDI) PCBs, high-layer-count and high-density (HLC-HDI) boards, multilayer rigid printed circuit boards (RPCB) and IC substrates (ICS). These products are widely used in end products such as computer information, consumer electronics, communications networks, automotive electronics, AI server high-speed computing, optical module and medical applications. The company offers professional one-stop shopping, full-solution services to customer worldwide. According to Prismark's global PCB industry rankings by revenue, Zhen Ding has been ranked the world's largest PCB manufacturer for nine consecutive years, from 2017 to 2025.
